## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on October 19, 2005 has been entered.

### ***Response to Amendment***

2. The amendment to the claims filed on October 19, 2005 does not comply with the requirements of 37 CFR 1.121(c) because the amendment does not reflect changes to the claims of record.

3. An examiner's amendment to the record appears below. This amendment remedies the non-compliant amendment by changing the dependencies of claims 3-5 so that they no longer depend on cancelled claim 1 and canceling claims 23-26, which were previously cancelled.

Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 3-5 are now dependent on claim 1 rather than cancelled claim 2.

Claims 23-26 are cancelled.

***Information Disclosure Statement***

4. The information disclosure statement filed June 9, 2004 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the pending application has not been identified by inventor (see 37 CFR 1.98(b)(3)). It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

5. To expedite matters, the examiner has listed US Patent Application Number 09/780,760 and the pre-grant publication of that application on a PTO-892. It is also noted that a terminal disclaimer was filed in US Patent Application Number 09/780,760, rendering moot any potential obviousness-type double patenting rejection with the present application.
